

Special Announcement

Spending too much on phone services?

Do cell phone bills have you confused or not certain if you are getting the best rate?

Do you think you have been overcharged by your phone company and due a refund?

If so.... Your membership in SBMA entitles you to a risk-free opportunity.

The SBMA staff recommends you read on to explore how your firm could possibly receive a refund on past phone bills and reduce your wireless expenses moving forward. Other firms who have done the same have seen thousands refunded to them!!

Through a member services partnership with [Corporate Advocates](#) all SBMA members now have access to industry professionals who specialize in telecom cost recovery and cost avoidance services.

Corporate Advocates works on a contingency basis, which means if they cannot find ways to save you money, then you don't pay them. Through this program they can help you:

- Compare current rate plans with other plans from your current providers
- Verify that current discounts and incentive credits are being applied according to contract
- Identify overcharges on past invoices and secure refunds, [click here for actual refund checks.](#)
- Scrutinize added features and services to see if they were ordered and are being fully utilized.

Through this program Corporate Advocates does not sell phone services nor are they compensated from the carriers in any form. Whether you have 15 cell phones and one location or 150 cell phones and 5 branch locations, THEY CAN HELP!

Endorsed and Promoted by the SBMA

"Corporate Advocates has proven itself to be an effective partner in reducing communications related expenses. They have an outstanding track record and I recommend that every SBMA member consider using their services."

Larry Adams,
President
SBMA

Exclusive Savings for SBMA members:

- No upfront fees or charges to members for review of telecommunication services
- Contingency service: you only pay if they find you savings
- Minimum time investment on your behalf
